About this property

Christie's International Real Estate Dubai is proud to present this elegantly understated waterfront penthouse designed by award-winning firm VSHD Design and located in Dubai Creek Residences.

Designed according to the philosophy of wabi-sabi, which is centred around the beauty of simplicity, transience and imperfection, a series of architectural changes were meticulously implemented to transform the existing structure using materials inspired by nature such as textured stone and weathered timber.

The final result is a penthouse that exudes modern minimalist lines and a palette of rich, earthy hues. This thoughtfully curated ambience goes beyond aesthetics, fostering a profound sense of well-being through the artful interplay of light and space. Many of the chic artworks that dot the apartment are also available and are by Emirati artists.

Most notable features of the property include: • Study • Creek and skyline views • Total Area: 5,457 sq. ft. • Terrace: 2,900 sq. ft. • Wabi-sabi aesthetics • Maid's room • Vacant
